FOR IMMEDIATE RELEASE

Harper Group Inc. Launches New Commercial Vehicle and Industrial Equipment Leasing Company

Company will offer its leasing services through their network of 17 locations across Ontario

Toronto, Ontario, September 18, 2007 - Paul and Steve Harper, owners of Harper Group Inc., the parent company of Harper Power Products Inc. and other companies, are pleased to announce the launch of their new leasing company Harper Leasing Inc. The new company will offer custom leasing options on commercial vehicles, diesel engines, industrial equipment, power units and generator sets.

"The key driver for our industry continues to be meeting and exceeding our customers' requirements," said John Cosgrove, President and C.O.O. of Harper Power Products Inc. "We are pleased to offer our customers a full service leasing option that can meet their transportation and equipment needs and lower their overall operating costs."

The introduction of Harper Leasing Inc. represents another significant diversification initiative by the Harper Group into the Ontario market. "Launching a leasing company was the next logical step in order for us to offer our customers a comprehensive commercial vehicle and industrial equipment product lineup in the Ontario market at the lowest operating cost," said Cosgrove.

Harper Leasing Inc. will offer access to commercial vehicles in addition to industrial engines, generator sets, power units, mining vehicles and other industrial equipment. "We represent the best brands in the commercial vehicle and industrial engine markets and we can now provide our customers with additional options when it comes to new vehicle and equipment ownership," said Paul Harper, Co-Chairman and C.E.O. of Harper Group Inc.

The Harper Group is also pleased to announce the appointment of Michael J. Donnelly as General Manager of Harper Leasing Inc. "Mr. Donnelly is the ideal candidate to lead the new leasing business given his reputable career attributes and reputation in the industry," said Steve Harper Co-Chairman and C.E.O of Harper Group Inc. The new Harper Leasing company will operate out of the Harper Group's 10 Diesel Drive location.

Harper Leasing Inc. will initially launch with a network of 17 locations in Ontario and be in a leading position to deliver and support its world class products to all commercial vehicle and industrial equipment sectors in Ontario.

About Harper Group Inc.
